- In case of any discrepancies/disputes, the plan2hack team decision is final and binding.
- The organizers have the right to modify rules without any prior notice.
- The organizing team has the right to disqualify any team at their sole discretion.

STAGES

Idea Submission Round
The participating teams will be required to submit their presentation online. The presentation should consist of all the significant details of your product. A maximum of 6 slides can be incorporated. These must include: Selected theme, Problem Statement, Abstract, Idea/solution, Tech Stack to be used. Students will be shortlisted, and the selected ones will move to the offline round.

Product/ Prototype Round
On the final day, the shortlisted teams have to present their product/prototype in front of the judges. Judging criteria will include the following factors: practicality/feasibility, innovation, and relevance to the theme.

Business Plan Round

The shortlisted teams after the second round will have to present a business perspective/plan for their products. Products with more business potential will be given higher weightage.

Final Stage

Presentation of prototypes and business plan in front of judges. The top 3 teams will be declared winners.
